

# RESCUE STUDY CAPABILITIES

## ACM is Here to Help

No one wants to find themselves in need of a rescue study, but nevertheless these things can and do happen. When they do, ACM Global Laboratories is ready and able to provide the highest level of guidance with a personal approach, to ensure that your study gets back on track quickly and efficiently.

With our global footprint and decades of successful clinical trial and rescue study experience, we are an honest and accountable lab that values flexibility, communication, and transparency. No matter where you are in the lifecycle of your trial, ACM has the expertise and ability to step in at any point to get your study back on track.

Whether you are experiencing issues in your current study with regard to compliance, quality, resources and/or timelines, ACM Global Laboratories offers a comprehensive rescue service for any aspect of your clinical trial.

## Effectively Aligning Resources

Partner with you to make sure we're the right fit as we work to align the right resources to get your study back on track and deliver according to submission timelines. This includes:

1. Completing a risk assessment that looks at the issues they're facing with their current lab and provides our solutions to mitigate those issues
2. Partnering on custom kit development and ensuring on-time kit delivery
3. Coordinating a global logistics plan that gets the sites the supplies they need, when they need them

## Don't Wait - Get Back on Track Today

At ACM, we understand that each study is unique and every rescue study must be carefully crafted to fill distinctive needs. However it's needed, our top priority is to get your study back on track.

Every rescue study is unique to the needs of the client, and therefore timeframes and exact specifics will differ on a case-by-case basis.
